

PALM OIL TRANSPARENCY DASHBOARD

Supply Chain

180.114
tons of palm oil*
sourced in H1 2021

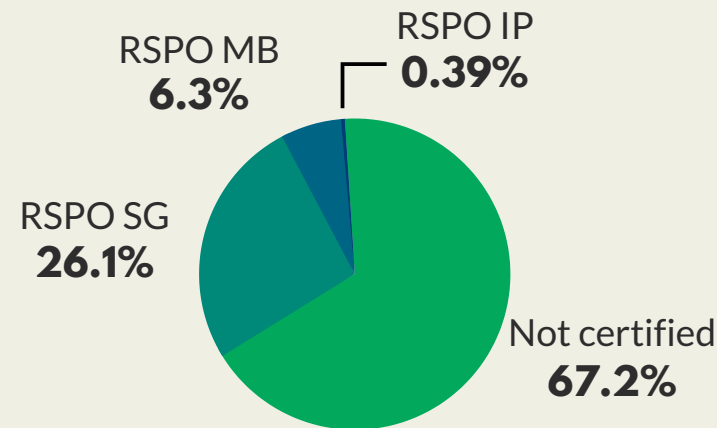

*palm oil, palm kernel oil and derivatives

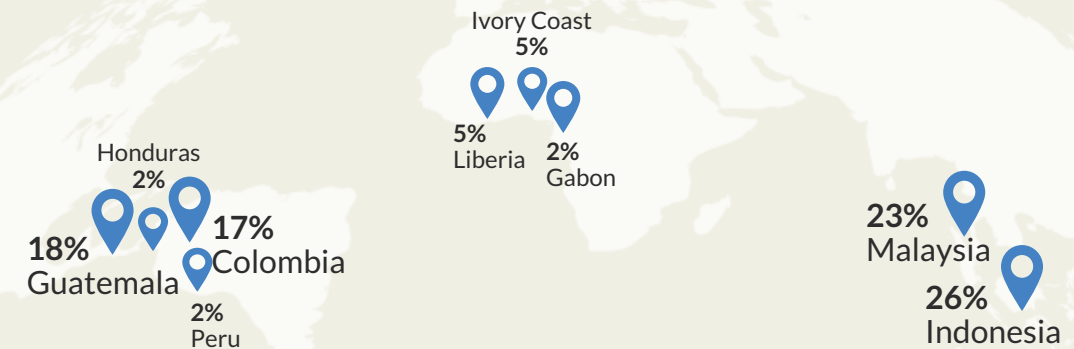

Certification

32,84% of our palm and derivatives products come from certified sources: RSPO.

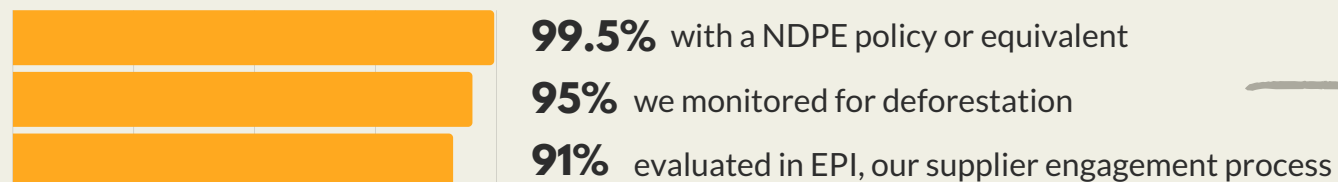

Countries of origin

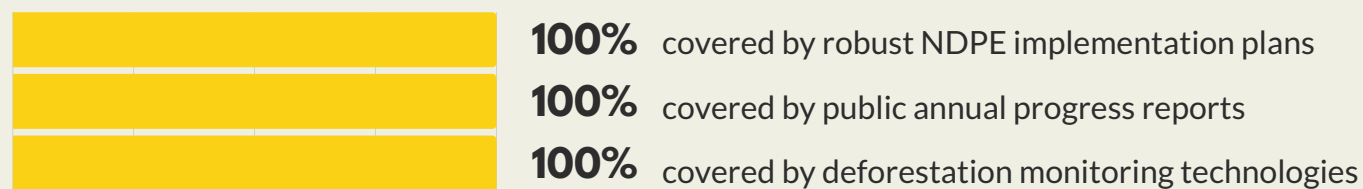

Impact

In H1 2021, the palm oil we sourced was coming from direct suppliers:

And from the volumes we evaluated in EPI:

Verify our No Deforestation Commitment

In H1 2021 we initiated the **verification** of our **No Deforestation** commitment using **Starling**, a **satellite-based** monitoring system provided by Airbus and Earthworm Foundation. The Starling technology is able to receive **forest cover change** updates in near real time, and to link it with our **supply chain** data.

In Q1 2021, the monitoring covered 95% of our global palm oil volumes. 53% of the volume in scope is Verified Deforestation Free.

We are working with our suppliers on the most significant deforestation events captured by Starling for each quarter.
